## \$200,000 NOW FOR SMITH'S ROAD

BRADLEY AND LAYTON BETRAYS CONSTITUENTS

## ROAD RESOLUTION PASSED BY COUNTY COMMISSIONERS, BRADLEY AND LAYTON.

Whereas, under the provisions of the Act of Assembly approved May 31st, 1911, establishing a State Highway Department, P. L. 464, and a supplement thereto, approved June 5, 1913, P. L. 417, County Commissioners, are authorized to make application for the reconstruction or improvement of any section of State Highway and agree to pay their share of the cost thereof in the same manner as in the case of a State Aid Highway.

It was moved by Mr. A. R. Layton and seconded by Mr. T. C. Bradley that the following Resolution be adopted and spread upon the minutes.

The Resolution is opposed by Mr. R. A. Stiver and so is recorded. By a vote of Mr. T. C. Bradley and A. R. Layton being a majority of the Board the Resolution was carried and is as follows:

## RESOLUTION

Therefore, Resolved, that we, the Commissioners of Bedford County, Pennsylvania, in regular session assembled on this day, the 27th day of January, 1920, desiring on behalf of said county to take advantage of the provisions of said act of assembly and supplement, thereto, do hereby make application to the State Highway Department for the reconstruction or improvement of ( ) from Yellow Creek North to the Huntingdon County line being a part or section of State Highway Route No. 46 in the townships of Hopewell, Broad Top, and Liberty, in the County of Bedford, and we do hereby agree for said County that it will pay to the Commonwealth, the sum of two hundred thousand dollars and the amount of the State Aid now available of the total expense of said improvement.

The above resolution speaks for itself. The resolution is set as it appears on the minutes of the board of County Commissioners except where the dash ( ) above exists. Here there is an omission of some kind. Whether it be intentional on the part of the Commissioners or not is not known but there is no doubt of something being left out. The resolution as it appears reads, "or improvement of from Yellow Creek"

We wish to state and make known now that Ross A. Stiver did not vote for the above resolution, nor did he go to Harrisburg by solicitation with Bradley, Layton and Attorney Reiley to fix it up. Mr. Stiver did not have anything to do with the raising of the County Tax either. Last year they raised it from 7 to 8 mills and this year they raised it from 8 to 9 mills. A mill makes about \$10,000 or \$12,000. Thus they expect to raise money to build the road from Yellow Creek to the Huntingdon County line. Next year the tax will likely be increased again. They can do this in two ways and we predict they will do both: raise the valuations and raise the millage. Don't forget you have voted into office two of the most extravagant county commissioners who ever sat in that chair. They are not extravagant themselves but they allow the politicians to dictate what political plunder they are to grant and they fall in. In other words they spend the money of the County for political plunder. Last March, 1919, they passed a resolution to appropriate \$200,000 to build the road from Yellow Creek to Huntingdon County line and this year they passed another to include about \$250,000 due the County from the State to apply on the same road. The Gazette all last summer and before election told the people that they had as candidates for County Commissioners two of the most extravagant and two of the greatest traitors to the people. Bedford County ever had and we meant it and we can demonstrate it by the above resolution alone. Why didn't they leave the old resolution of March 1919 stand? Because it did not carry enough money. They know and any body knows who has an ounce of brains and the Gazette said so last summer, that \$200,000 would not build one-half of the road. So they go to work to tack on \$55,000 more of the County's money making \$255,000 of Bedford County's money to go to build a highway by "High Fever" Smith's home and Tom Bradley's home, 80c taxpayers. The Gazette predicted last summer and it predicts again that \$255,000 won't build the road that at least \$125,000 more will have to be forthcoming from some source in order to complete the road because you cannot build 20 miles of road along the route contemplated in Bedford County, a route where several suits have been held in Court because people have tumbled down over the high banks and the bed of the road gave away, for \$255,000 when contracts for roads elsewhere are let for \$45,000 to \$50,000 a mile. It's absurd and the people will find it out. \$20,000 a mile is a low estimate and that will entail at least an appropriation from the county of \$400,000. That means another bond issue by Bradley and Layton, some time within the next four years.

And here comes the most down right deception ever perpetrated by a set of officials. These commissioners Bradley and Layton have signed contracts with West St. Clair, King and Kimmell and Colerain townships to build for them state roads on the distinct understanding that the County puts up one-fourth, the townships one-fourth and state one-half but playing the traitor to these people all the time and deceiving them from the very beginning to the very last they proceed to vote not only the \$200,000 of last year's resolution, but \$55,000 more of the County's money due from the state into a section of the County where neither township need to put a penny for its road. The Gazette explained that \$200,000 of the County's money as its one-fourth would make available \$800,000 for roads in Bedford County and yet Bradley and Layton, will sacrifice the people's interests and play traitor to the citizens of West St. Clair, King, Kimmell and Colerain, a contract obligation and throw away \$600,000 of available money merely to play politics and pay political debts to 80c and "High Fever" Smith. Such treachery was never known in the history of Bedford County and such buncombe on business methods in the Commission-

ers' office never was and cannot be surpassed. And Bradley says he would sign that resolution if it was the last paper he ever signed. Mark that! The Gazette isn't lying. We repeat now as before the election that Bedford County has two of the least qualified County Commissioners, in Bradley and Layton that were ever known, and the most expensive

## SCHOOL NOTES

No Patrons' day exercises on Friday. Because of the spread of sickness in town the special exercises for Friday afternoon are postponed to some later day not yet decided. We wish to call the attention of the patrons of the school to this change.

## Original Cabinet Members Out to 3.

Of the Cabinet members chosen by the President in 1913, only three have survived changes in that body. The original members are Secretary Daniels of the Navy, Secretary of Labor Wilson and Postmaster General Burleson. Mr. Bryan was succeeded by Mr. Lansing; Mr. Garrison by Secretary Baker; Mr. McAdoo by Mr. J. B. Payne of the Shipping Board; and Mr. McQuinn by Mr. Gregory and later by Attorney General Palmer.

## Don't Eat Bad Food, Is Advice.

Following a number of deaths at Memphis, Tenn., and other cities, the Bureau of Chemistry has issued a warning against eating any foods that show evidence of decomposition, recent fatalities having followed the eating of ripe olives which had begun to decay.

"Persons are warned not to eat any food that is off color or odor, or which is packed in containers that seem swelled or which when opened, show an accumulation of gas or evidence of decomposition," says the bulletin.

## BIG ELK DRIVE

On Sunday next the large herd of Elk ranging in Blair County consisting of two large bulls, two small bulls, ten cows and calves, will be driven across the mountains into Cambria County. They have been molesting the farmers of Blair so that damages have been sent to Harrisburg for collection. It is contemplated to drive them into the Babcock wilderness for future subsistence so the people of Pavia, Lovely, Alum Bank, New Paris and New Buena Vista may get a peep at these big animals next summer provided they stay put.

## BASEBALL PEACE AT LAST

The United States may be slow in the matter of making peace with Germany, but the great American game has not failed to effect a settlement of its trouble. At Chicago peace reigns between the warring baseball factions. The American League differences have been adjusted, all suits are withdrawn, the star pitcher whose antics last season precipitated the trouble has been restored to good standing and harmony prevails. All fans believe that in a sensible course. The public wants the game played without constant distractions in the way of disputes between owners and managers and legal proceedings. It is a game highly enjoyed and heavily patronized by the people. The maneuvers in and out of the courts during the past half year have been a handicap on players and a nuisance to the supporters of the sport. Now let the teams go into their spring practice; let the managers make their preseason boasts of pennant winning and let the people study the schedules. Baseball, freed of litigation, will enjoy a prosperous season.

## MISS EMMA F. BARCLAY

Miss Emma F. Barclay, on South Juliana St., died on Wednesday. We will publish her obituary next week.

## MISS GRACE BEEMILLER

Miss Grace Bee Miller a clerk in Straub's store, died Tuesday night about 9 o'clock.

The eagerness of the ex-crown prince to surrender himself would indicate that his advisers do not regard the danger as very great.

It's no fun for a fellow to loaf unless he has a lot of work to do.

## "FARMER" GREASY CALLED BY DEATH

PROMINENT AS POLITICIAN AND LEADER OF STATE GRANGE

## LABOR LEAGUE PARTY MEETS

Rheumatism following an illness that kept him in bed for 15 weeks, caused the death last Saturday of William T. Greasy of Catawissa township, a prominent figure in state and national politics for years and a leader in the state and national granges. He was aged 64 years. He was a member of the legislature from 1894 until 1904; for years was the Democratic leader in the house and party nominee for state treasurer in 1899 and in 1906 for auditor general. In 1910 he was defeated for state senator and later was the Democratic candidate for lieutenant governor.

For 40 years he was a power in the state grange and from 1903 to 1914 was its master. For several years he was secretary of the national dairy union and chairman of the executive committee of the national board of Farm Organizations with headquarters at Washington, D. C. Funeral services were held in St. Johns Lutheran church, Catawissa, at 10 o'clock Wednesday morning.

## FIRE AT BUFFALO MILLS

On Monday night at about 1 o'clock fire broke out in the store of J. Russell Mowry at Buffalo Mills causing about \$1000 damage to the building and about \$2000 damage to the goods. The fire started, in the front corner of the building from an unknown source and ate its way into the front show window where about 4000 ammunition shells were on exhibit. As these shells became heated they exploded in rapid succession which alarmed the neighbors and thus the fire was discovered. Bullets from the exploded shells were found in the back of the store fifty or sixty feet away. The metal ceiling saved the building from burning but practically the front of the store is destroyed.

## Rural Carrier Examination.

The United States Civil Service Commission has announced an examination for the County of Bedford, Penna, to be held at Bedford and Everett, Penna, on March 13, 1920 to fill the position of rural carrier at Artemas and Breezewood, Penna, and vacancies that may later occur on rural routes from other post offices in the above mentioned county. The examination will be open only to citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 1977. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date.

## THE LOW EXCHANGE RATES

The Gazette believes that if foreign exchange continues to fall to lower rates American trade must inevitably be seriously affected. Already indeed, it is impaired by the unwillingness of shippers to take chances on losses due to money rates shrinking while goods are in transit. The present low levels are beyond precedent. With the British pound touching \$3.19 in New York obviously the exchange market is in grave condition. This is due to the fact that there is no British trade credit in this county. Imports from England must be promoted as a means of restoring the price of the pound here. Loans by the Government will not, in any direct influence they exert, effect a cure of the conditions that cause the foreign exchange to fall. What England, France and Italy most urgently need today is an industrial reestablishment. To the end of facilitating that process loans may be valuable but they are not regarded in whatever form as corrections of the exchange dislocation save through their effects in quickening production on the other side of the Atlantic.

It is hard to lose our friends and it is impossible sometimes.

## LABOR LEAGUE PARTY MEETS

The Labor Party League or the Non-Partisan Labor League met in Altoona last Saturday for the purpose of establishing a working organization for the coming May primaries and for the General Election next November.

## LABOR LEAGUE PARTY MEETS

The Convention was attended by nearly a hundred delegates and was called to order by Charles Kutz, Mayor Charles E. Rhodes of Altoona, made the address of welcome. The convention then proceeded to elect officers. Charles Kutz, of Altoona was elected president; John Freidhoff of Johnstown, Harry Plummer of Altoona and J. McGeary of Deane, this county, were elected Vice Presidents; Corresponding Secretary, F. J. Schmidhammer, Altoona; Recording Secretary, Richard Rinn, Altoona and Treasurer, W. H. McKee, Altoona.

The purpose of the meeting was stated to organize for a Congressional Campaign and to enter into the political field on a non-partisan platform for the legislature in the three counties, Blair, Bedford and Cambria. The meeting denounced Congressman Rose as hostile to labor and condemned Congressman-at-Large, A. H. Walters for his hostility. It is rumored that A. W. Jones, of Deane, will be labor's candidate for the legislature, in Bedford County and that the Republicans will place W. H. Mowry of Buffalo Mills in the field, as again st "High Fever" Smith.

Regardless of how strong the new organization will be in Bedford County, it is a truth that if Blair County gets behind a candidate for Congress that candidate will bid fair of defeating Rose, who is a candidate for reelection. They polled 6000 votes in Blair County last fall and elected a mayor of Altoona with but a meagre and short organization. If Cambria County where labor is also strong gets behind the man yet they will put the Penrose ring in this Congressional district to flight and will likely put out of commission all Penrose candidates for the legislature in any one of the three counties.

On Saturday, March 13, another Tri-County Convention will be held in Mechanics Hall, Altoona, for the purpose of making a suggestion for a nominee for Congress.

Cambria County predicts a strong organization can be perfected over there and the delegates from Bedford County were equally certain that a strong organization can be effected here. This old strong Republican Congressional district is beginning to tumble. The labor element in this county sees that if the Republican party gets into control that labor will be crushed to death. It doesn't take great philosophy to see the working if Capital, on the G. O. P. and the sneers labor gets at the hands of the same G. O. P.

## WHAT THE RED FLAG REALLY MEANS

A few definitions are in order. One of them concerns the red flag which has been so widely displayed in connection with revolutionary propaganda and which is acclaimed by its followers as the symbol of liberty. Since we already have in this country a flag of red, white and blue which we have associated with that term, it becomes appropriate to inquire what interpretation of "liberty" the red followers have in mind. Clearly it is something different from our own or they would not need another flag to express it. In this matter, as in most other matters, actions speak louder than words. Red actions have spoken most loudly in Russia, and it is there that we can get our best idea of the red purpose toward liberty.

One Russian fact stands out prominently—the red purpose toward liberty does not include the liberty of the bourgeoisie, and this brings us to our second definition.

Who constitute the bourgeoisie? In plain language they are the productive class of the nation. Any man or woman who has a farm, a shop, a store or a factory, large or small, or who gives employment to a single other person is bourgeois. America is largely bourgeois and every working man will become a member of the bourgeoisie if he prospers. In other words, there are no hard and fast classes, but a constant change and progression. For the proletarian to advocate the destruction of the bourgeoisie is for the present to attempt the destruction of the future.

The doctrine of class distinction and class consciousness is anti-American and is menacing to the fundamental principles of our nation. It is perhaps the most primary difference between bolshevism and Americanism. It is the fruit of Russian tyranny and has no place in free America.

## TO OUR SUBSCRIBERS

Owing to the great advance in newspaper paper and especially the more recent advance, we are forced to ask our patrons to pay their subscriptions in advance. To do this will help materially and prevent us from raising the price unless a greater advance is made in the paper stock. Hereafter, until further notice, the price of the Gazette will be \$1.50 a year if paid in advance and \$2.00 a year if paid within the year. We wish to thank our patrons for the prompt response to our statements sent in January. Some are still in arrears but a little time will put all of our people in the advance list.

A man should always say just what he thinks—if he can afford to be unpopular.

## When The Day Is Over

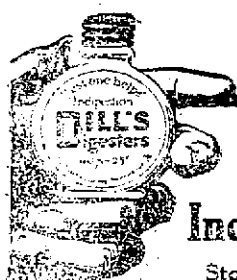

When the household cares and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but

headache, backache and worry, turn to the right prescription, one gotten up by Dr. Pierce fifty years ago.

Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening, bearing-down pains, irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it, in liquid or tablet form.

### Evolution of the Almond.

One would scarcely suspect the almond of ever being anything else than a nut. Outside the shell is a thin coating of green, leathery pulp, too bitter to eat and not much more inviting than the back of a walnut. Yet, when the almond is properly prepared, it is a most delicious and healthful food.

## Three reasons why you'll like the new "U.S." Walrus

- 1—Can be cleaned instantly
- 2—Slips right over your leather shoe
- 3—Fleece-lined—warm and dry

**N**O more dirty, mud-clogged overshoes! Here's some thing new—an overshoe that you can clean instantly. Dash a pail of water over it—or hold it right under a faucet—and every trace of dirt washes quickly off its smooth rubber surface.

For dozens of odd jobs around the place, you want an overshoe that you can slip on and off in a hurry. Here it is—buckle it on in a second—unbuckle it and push it off with your toe when you're through.

Ever work on a job all day long with wet, cold feet? Then you'll be glad of the soft, fleecy lining in this new overshoe that keeps your feet always warm and comfortable. Dry, too—it's absolutely watertight.

Think of having an overshoe as warm and convenient as an arctic—as watertight and easily cleaned as a rubber boot! That's the new U. S. Walrus—don't forget that

name! In every way, it's the farmers' ideal overshoe.

Ask your dealer today to show you the new U. S. Walrus. Note the smooth, all-rubber surface—the heavy reinforcements at all points of strain. After you've worn a pair of U. S. Walrus for a day or two, you'll realize why they're fast becoming so popular with farmers everywhere.

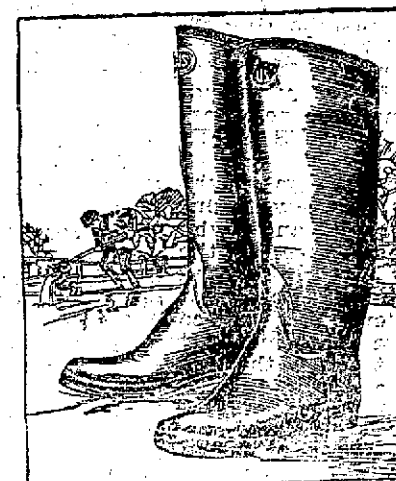

**Other "U.S." models—all built for the hardest wear**

Whether you prefer a boot or a bootie for the wet season, a "rubber" for general use, or a cloth-top arctic—you can find in U. S. rubber footwear exactly what you need. Tough, heavy soles—special reinforcements at toe and heel—and always the highest quality rubber—these points are winning U. S. rubber footwear thousands of new friends every year.

Ask for U. S. Rubber footwear—it means solid wear and long service for your money.

THE UNIVERSAL CAR

ONLY A LIMITED NUMBER OF FORD CARS

There are mighty good reasons why you should buy your Ford car now. But the biggest one is that there are only so many Ford cars—just a specified number—allocated to this territory. Those who buy their cars now will be wise. They will have them to use whenever they wish.

Don't put it off—next spring, even next month, is an uncertainty. We cannot take orders for spring delivery. Even now, we must have signed bona-fide orders before our monthly allotment is shipped us. So the only way for you to be sure of getting a Ford car, is to order it now. Get your name on an order. It is your protection.

Again we tell you, the allotment for this territory is limited and you must buy now while deliveries are possible. As ever, the demand for Ford cars is away in advance of production. So, it's first come, first served. Spring, summer, autumn and winter are all the same to the Ford car. It is a valuable servant every day of the year. Rain or shine, it is ready for your demands. Buy now and get prompt delivery. You won't have to store it. You can use it. Buy now while the buying is possible.

Bible Institute of Chicago

### LESSON FOR FEBRUARY 22

PETER'S DELIVERANCE FROM PRISON.

LESSON TEXT—Acts 12:1-19.  
GOLDEN TEXT—The angel of the Lord came and delivered them.—Ps. 34:7.  
ADDITIONAL MATERIAL—II Kings 8:17; Luke 22:33-46; Acts 16:25, 26; Heb. 1:14; James 5:16-18.

PRIMARY TOPIC—How an Angel Helped Peter.  
JUNIOR TOPIC—Peter Delivered From Prison.

INTERMEDIATE AND SENIOR TOPIC—How Prayer Helps.  
YOUNG PEOPLE AND ADULT TOPIC—Things Wrought by Prayer.

### I. Peter's Imprisonment (vv. 1-4).

1. By whom (v. 1). Herod, the grandson of the wicked Herod who slew the innocent children at Bethlehem.

2. The reason (v. 3). It was to gain the favor of the Jews. Herod was not a Jew, and therefore knew that his success was dependent upon having the good will of the Jews. He did not particularly hate the Church, but loved popularity. Herod, for the sake of popularity, assumed a deep sympathy for degenerate Judaism. Since the Church had developed into a successful rival of Judaism—indeed was already displacing it—he saw an opportunity to curry favor with the Jews by putting his hand forth against it.

3. The method (v. 4). Peter was arrested, put into prison and guarded by four quaternions of soldiers. A quaternion is a guard of four soldiers on duty at the same time. Four quaternions meant that a special group was on duty each watch of the night. It was the custom for two soldiers to be in the prison, one on each side of the prisoner, bound to his arms with chains (v. 6). The third one to watch outside the door and the fourth to be near the outside gate. Humanly speaking it was impossible to escape. However, they made one fatal mistake; they left out God.

### II. The Church of God in Prayer (v. 5).

The Church was in a crisis; her situation was most grave. James, one of the pillars of the Church, was dead, and Peter, the most prominent of all, was in prison. In this desperate strait they did the wise thing; they betook themselves to prayer. There is nothing too hard for God. There is a noteworthy prayer:

1. It was unto God, not unto men to be heard of men. This is a very common fault today. All true prayer is unto God.

2. It was united prayer. It was made by the Church. God hears the prayers of individuals, but there is peculiar power in the united prayer of God's people.

3. It was an intensely earnest prayer. It was more than desiring prayer; it was the yearning desire of the soul as it stretched itself out toward God.

4. It was definite prayer. They specifically interceded for Peter. Their prayer was concentrated, definite and specific.

### III. Peter Delivered by an Angel (vv. 6-11).

This occurred the night before Herod's plan to make a public display of him.

1. Peter sleeping (v. 6). The angel found Peter asleep. The Lord keeps in perfect peace those whose minds are stayed on him (Isa. 26:3). Again, he gives his beloved sleep (Psalm 127:2).

2. Peter leaving the prison (vv. 7-10). The heavenly light shone in the prison. The angel smote Peter on the side, the chains fell off, Peter put on his clothes, passed by one guard after another, through the iron gate out into the city.

3. The effect upon Peter (v. 11). Although the event was so wonderful to Peter, and at first he thought it a vision, when he came to himself he was assured beyond peradventure of a doubt that God had miraculously delivered him from Herod's wicked hands.

### IV. Unconscious Unbelief (vv. 12-19).

1. The behavior of Peter and the Church (vv. 12-17). Peter went to the house of Mary and knocked. The knock was answered by Rhoda, who was so overjoyed on hearing Peter's voice that she forgot to open the gate and ran in and told them that Peter was at the gate.

2. The behavior of the soldiers (vv. 18, 19). There was great agitation among them over Peter's disappearance. This was a serious matter, since they were responsible for him. Not being able to account for Peter's escape, Herod commanded that they be put to death.

### Be Not Too Sure.

Be not too presumptuously sure in any business; for things of this world depend on such a train of unseen chances that if it were in man's hands to see the tables, still he would not be certain to win the game.—Herbert.

### Care of Today.

The cares of today are seldom those of tomorrow; and when we lie down at night we may safely say to most of our troubles, "Ye have done your worst, and we shall see you no more."—Cowher.

### Short and to the Point.

The man or woman who can cover himself as a watchdog to give an alarm words is not often for in the ranks of the unemployed. Everyone is willing to listen to a speaker; a whole population is converted into a listening audience to a single speaker.

### Useful Birds.

Ducks, geese and guineas are as important subjects in a few simple words as a watchdog to give an alarm words is not often for in the ranks of the unemployed. Everyone is willing to listen to a speaker; a whole population is converted into a listening audience to a single speaker.

### Of the Wedge.

The man or woman who can cover himself as a watchdog to give an alarm words is not often for in the ranks of the unemployed. Everyone is willing to listen to a speaker; a whole population is converted into a listening audience to a single speaker.

**Carrying a Ton a Mile for less than a Cent**

Freight rates have played a very small part in the rising cost of living.

Other causes—the waste of war, under-production, credit inflation—have added dollars to the cost of the necessities of life, while freight charges have added only cents.

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for \$30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16½ cents.

Now the freight charge is 22 cents and the suit sells for \$50.

The cost of the suit has increased 20 dollars.  
The freight on it has increased only 5½ cents.

Other transportation charges enter into the cost of the finished article—carrying the wool to the mills and the cloth to the tailors—but these other charges amount to but a few cents more.

The \$10 pair of shoes that used to sell for \$5 goes from the New England factory to the Florida dealer for a freight charge of 5⅓ cents—only one cent more than the pre-war rate.

Beef pays only two-thirds of a cent a pound freight from Chicago to New York.

American freight rates are the lowest in the world.

# THE BUICK CAR

There are a lot of things a man buys that he intends to discard after a season or so. He expects the style to change year by year. That as it should be.

But no matter how much money a man has, when he makes the purchase of an automobile he expects to get a REASONABLY PERMANENT VALUE.

He usually gets it in everything but his motor car, where the habit of style changes each year may wipe out 30 per cent of its value over night.

If a car is expected to last only a year or two, there is no reason why its style should not change every season.

But the BUICK COMPANY believes that STABILIZED STYLE in BODY CONSTRUCTION AND STYLE is just as important as BUICK MECHANICAL FEATURES and PERFORMANCE.

THE BUICK CAR is built to DELIVER SERVICE over a TERM OF YEARS and is not subject to passing moods in STYLE nor ENGINEERING DESIGN.

Think before you buy. Have you ever heard people say that they see so MANY BUICKS every where they go? That is because the BUICK keeps on running and is ALWAYS A NEW MODEL.

Choose a car that will be good for MANY SEASONS as well as for one.

## REPUBLICANS ORDER SIXTY-ONE

### "INVESTIGATIONS" COSTING \$2,000,000

**Taxpayers' Money Voted to Furnish Campaign Material for G. O. P. and to Provide Big Fees for Friendly Legal "Experts"**

Washington, D. C.—The Republican Congress has ordered sixty-one "investigations" at a cost of more than \$2,000,000. The money expended was used largely in efforts to get political credit. While refusing money for the fight against the high cost of living the Republicans wasted it on these useless inquiries.

"It is very evident," said Senator Hitchcock, Democratic leader of the Senate, "that the intention of the Republicans is to convert as many as possible of the sixty-one investigations that have already been ordered into partisan proceedings."

"It is proposed to go on with this orgy of investigations and establish as many tribunals as possible, and employ as many lawyers as possible, to work out as many cases as possible. I am in favor of having the Congressmen who desire these investigations carry them on. I oppose the practice of having Republican politicians and Republican party leaders called in on the pay of the Senate or House to conduct these cases."

The investigating committees are paying experts at the rate of \$20,000 a year. The firm of Scudder and Scudder of New York has been engaged at \$100 a day.

Explaining the employment of Scudder and Scudder, William Tyler Page clerk of the House, said: "When one of the firm is employed he will get \$50 a day, and when both are employed they will each get \$50 a day, and then their assistants get amounts ranging from \$10 to a rate less than \$50 a day."

The Democrats have favored all inquiries where suspicion of wrong doing existed but they have contended that the Republicans had no right to waste the taxpayers' money in quest of a little political capital.

Recently prominent woman suffrage workers came to Washington from western states to serve notice on their Republican friends that the nomination of an Old Guard leader for the Presidency would lose them many thousands of women voters next November. The impression that the Republicans have made up their minds to name for standard bearer in the coming campaign a man of the standpat type has gone abroad, and the suffragists visited Senators and Representatives to serve notice that they are riding for a fall if they carry out their alleged purpose.

The Old Guard is afraid of the woman voter but it will not give up its program for a revival of the good old protection days. The group of party workers dominated by Senator Boies Penrose will control the next Republican national convention, and name the man the bosses can use. It is this very thing that the suffragists fear.

Evidence that the standpat Republicans are going to ride rough-shod over any other sort of Republican that gets in their way is accumulating here. The western women hoisted the danger signal. Among those who have announced that they will not support a standpat Republican are suffragists who picketed the White House, criticised the President, and declared they would vote with the Republicans.

Members of Congress from progressive states are alarmed over the drift that wrecked their party ten years ago, but they are afraid to make an outcry lest they stir up

Senator William E. Borah now realizes that the old saying that "chickens come home to roost" is as true as it was in olden days. He and other erstwhile "Progressive" Republicans made possible the Penrose organization of the Senate and House. They could have prevented the election of Mr. Penrose to the chairmanship of the Finance Committee, the most powerful position for political purposes, in the Senate. But when the time came they assisted Mr. Penrose into that all important place. Now they worry about campaign pledges that are not being carried out.

The Old Guard never did keep its promises to the masses. In former years it followed the advice or obeyed the demands of big interests. It is returning to its old way of doing things.

The House and Senate leaders will mark time for the rest of this session, giving first one excuse and then another for failing to put through constructive legislation. They are trying to make political capital out of railroad legislation, the appropriation bills, and every other measure is being tinged with politics.

The House Steering Committee, in the absence of Boies Penrose, is attempting to control Congress. Appropriations are cut without regard to the results. The reductions are arbitrary. Irrigation projects started by the Republicans and maintained for years will have to be abandoned for lack of funds. Government contracts are to be disregarded in some cases and places.

The Old Guard is in the saddle and riding for the November election, but if the people learn the truth—lift the Republican camouflage and see just what has been done—they will unhorse the Penroses, Gilletts and Mondells.

\*\*\*  
The Republican party is hard pressed for campaign material. It will try to divert the attention of the people from its sorry legislative record.

It is the same old story; history is repeating itself. For many years the Republicans had uninterrupted control of the Washington government, including both the White House and the Capitol. The people drew the booby prize in that era of Republican rule.

The Democrats came in and made a wonderful showing on the statute books. They passed the Federal Reserve act and other really constructive measures. The Republicans took charge of Congress last May, and have wasted eight months in talk and on politics.

Here are some of the things that the voters hold against the Republicans:

- Failure to prepare the nation for a war emergency.
- Failure to enact an income tax.
- Failure to reform an antiquated currency system.
- Failure to enforce the anti-trust laws.
- Failure to correct trust abuses.

#### TALK TO THE LIVING.

If you've anything good to say of a man, Don't wait till he's laid to rest, For the eulogy spoken when hearts are broken Is an empty thing at best.

Ah, the blighted flower now drooping lonely Would perfume the mountain side, If the sun's glad ray had but shown today And the pretty bud espied.

If you've any alms to give to the poor, Don't wait till you hear the cry Of wan distress in this wilderness, Lest the one forsook may die.

Oh, hearken to poverty's sad lament! Be swift her wants to allay; Don't spurn God's poor from the favored door, As you hope for mercy one day.

Don't wait for another to bear the burden Of sorrow's irksome load, Let your hand extend to a stricken friend As he totters adown life's road.

And if you've anything good to say of a man, Don't wait till he's laid to rest; For the eulogy spoken when hearts are broken Is an empty thing at best.

**The Mind.**  
My mind to me a kingdom is, such perfect joy therein, I find as far exceeds all earthly bliss that God or nature hath assigned.

**Time.**  
Things move so rapidly now-a-days that those who say "It can't be done" Are always being interrupted by somebody doing it.

**Success.**  
The time to succeed is when others, Discouraged show traces of tire, The battle is fought on the home stretch, And won 'tween the flag and the wire.

#### SLIDING PARTIES

The following persons were among those who were most royally entertained at a sliding party held in Bedford township at the home of John Berkstresser on Tuesday night; and at Harry Zimmers on Thursday night: Mr. and Mrs. John Berkstresser; Mr. and Mrs. Harry Zimmers; Mr. and Mrs. George Walters; Mrs. Otto Brown; Mrs. John Roberts; Misses Ruth Nangle, Esther Shuss, Helen Hammers, Elizabeth Hammond and Katherine Roberts; Messrs. Humphrey Dibert, Howard Koontz, Robert Anderson, Daniel Spiker and Paul Hoagland.

Both evenings were joyfully spent in entertainment consisting of games, music, both vocal and instrumental furnished by talented musicians of the crowd; and last but not least "toothsome" refreshments were served by the hostess of each home which needless to say, added much to the evenings' entertainment.

At an "early" hour the guests departed for their respective homes, thanking these kind folks for their splendid hospitality.

#### THE PRESIDENT'S HEALTH

The Gazette believes that Dr. Hugh H. Young has performed a real service to the people of the country in giving the frank statement of the cause of the President's illness and an accurate account of his progress towards recovery.

It was due the public, and coming as it does from a man of such high professional standing as Dr. Young it will be accepted at face value. All people of all political shades, rejoice at the splendid prospect of the President's ultimate recovery and take direct personal interest in his convalescence.

The mystery that has been thrown about the President's illness was perhaps excusable, even though annoying and baffling to those who deeply sympathized with the patient and eagerly awaited encouraging news from his bedside.

After four months of rumor and speculation, unallayed from official sources except by the briefest bulletins, the public was entitled to know the truth, and therefore will appreciate fully the authoritative statement from Dr. Young that the President was a sufferer from a blood clot on the brain. And the news will be all the more welcome because in addition to being authoritative it stated he had entirely recovered from the illness and would soon be out in public again.

#### CHANGE OF RATES FOR TELEPHONE SERVICE

The Bedford County Telephone Company, rendering service in portions of Bedford County, Pa., has filed a new tariff of rates with the Public Service Commission. The new tariff becomes effective on March 1st, 1920, and makes the following increases in existing rates:

A connection charge of 10 cents is made on each complete call from the King and Imbler and King and Pavia lines or their successors.

A charge of 10 cents is made on all telegraphic messages transmitted by any telegraph company beyond the limits of Bedford Borough.

48 YEARS IN BUSINESS 48

#### PASSPORT FEES.

In these days of large Congressional appropriations and when the tendency is to increase the expenditures of the Government, there is something novel in the proposition to increase the income.

We believe this makes the bill introduced by Representative Porter, chairman of the U. S. House of Representatives committee on foreign affairs of more than ordinary interest. The bill increases the passport fee from \$1 to \$10.

It is estimated that if the bill should become a law, the diplomatic service of the United States would become at least half self supporting, as the increase in revenues would amount to nearly \$3,000,000 a year. Leaders of Congress welcome a proposal which promises to bring money into the Treasury.

The advance in the fee for issuing passports in suggested upon the basis that those who go abroad for business or pleasure can well afford to pay the higher rate, and upon the further ground that in times of peace the sole function of diplomatic officers of the United States being to look after the interests of Americans sojourning abroad, the beneficiaries of this service should bear the principal share of the expense, and in this most people will concur. Fees in the diplomatic service have been fixed heretofore at a point where they were expected merely to cover the cost of clerical work.

Sam Barlow says it would be worth five dollars to him to walk into a good old fashioned barroom and get one good whiff of it. He means by this to be able to walk in flat-footed and breathe the good sweet-scented air freely with a good open conscience, and then walk out upon the streets in broad daylight and nobody suspect anything.

The Pummkinville Loafers Club has appointed Zero Peck and Alexander Moseley a committee to try to find out how much money the Old Miser has, refused to act, saying he is not the man to serve in this capacity, as the Old Miser is already suspicious of him, having caught him a year or so ago peeping through a crack of his garden fence while he was engaged in burying some of his money.

Millions of Eggs Forced on M

Figures made public by the Dept. of Justice show that more than 1,000,000 eggs over 1,500,000 pounds of butter and cheese, nearly 1,000,000 pounds of sugar and the tons of cases of canned goods have been forced from cold storage and sold under supervision of U. S. authorities. The department stated that 100,000 of these seized foods had a lowering effect on the market, in which they were sold.

# Camel CIGARETTES

CAMELS supply cigarette contentment beyond anything you ever experienced! You never tasted such full-bodied mellow-mildness; such refreshing, appetizing flavor and coolness. The more Camels you smoke the greater becomes your delight—Camels are such a cigarette revelation!

Everything about Camels you find so fascinating is due to their quality—to the expert blend of choice Turkish and choice Domestic tobaccos.

You'll say Camels are in a class by themselves—they seem made to meet your own personal taste in so many ways! Freedom from any unpleasant cigarette after-taste or unpleasant cigarette odor makes Camels particularly desirable to the most fastidious smokers. And, you smoke Camels as liberally as meets your own wishes, for they never tire your

taste! You are always keen for the cigarette satisfaction that makes Camels so attractive. Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

### The Interesting Loon.

The loon is one of the most beautiful and graceful of the wild water fowl, rivaling the wood duck in the markings of its plumage. On the Northern lakes there is no bird that can dive quicker or swim faster. Awkward and clumsy on land, but so active and alert is it in the water that it can dodge bullets. "The loon is a cousin to the beaver," says John Burroughs. "It has the feathers of a bird and the fur of an animal, and the heart of both. It is as quick and cunning as it is bold and resolute. When disabled so that it can neither dive nor fly, it is said to face its foe, look at him in the face with its clear, piercing eye, and fight resolutely till death. The gunners say there is something in the wailing, piteous cry, when dying, at most human in its agony."

## Now All You Good Fellows, Come Fill Up Your Pipes

The Velvet tin is twice as big as shown here

If ever men are "Tom" and "Bill" to each other, it's when good pipes are a-going. If ever good pipes go their best, 'tis when Velvet's in the bowl.

For Velvet is a mighty friendly smoke. Kentucky Burley is the leaf that Nature made for pipes. Wholesome and hearty, honest as the day. And Velvet is that same good Burley leaf, brought to mellow middle age.

For eight long seasons Velvet "meditates" in wooden hogsheads, throwing off the rawness of "young" tobacco—truly "ageing in the wood." Out Velvet comes—cool, calm and generous—the tobacco Nature made good, kept good and made better.

Velvet's sweetness is the sweetness of good tobacco, not "put on" like "frosting" on a cake. Its mildness comes from natural ageing, not from having the life baked out. Its fragrance is true tobacco fragrance, not a perfume. And Velvet makes an A Number One cigarette. Roll one.

As good old Velvet Joe says:

"Fill yo' heart with friendly thoughts,  
Yo' mouth with friendly smoke—  
An' let the old world wag."

### PUBLIC SALE

The undersigned will offer for sale at his residence in Snake Spring township, about 1 mile south of Lutzville on March 3, 1920, at 12 o'clock the following personal property: Horses, cattle, sheep, wagons, plows, harrows, cultivators, black smith tools, hay ladders, harness and lot of other things too numerous to mention.

Terms made known on day of sale.  
H. H. Bingham, Lutzville.

### Joy, the "Big Medicine."

Happiness lengthens, broadens and deepens life. And, like the quality of mercy, to be permanent and natural it should not be strained, but should flow freely, first as the result of good digestion that attends on appetite, and next because it makes the persistent will to be glad automatic. Of all the "big medicine" that has ever been brewed in the alembic of science there is nothing so big, so certain, so complete and so satisfying as Joy.—Exchange.

### Sensitive Plant.

The sensitiveness of some plants has been a matter of deep study by botanists. The sensitive plant and all the mimosas, and the sundew and others are so susceptible to disturbance that a footstep nearby causes flowers and leaves to curl up and droop. After the jarring has ceased they slowly regain their upright positions.

### And for Good Reasons.

The self-satisfied person who always knows he could have done better than he one who was present in time of some special trouble or danger is seldom the person to whom anyone turns for help or advice is needed.

The Republican party might have survived a special session of Congress, but the people will hardly forgive a repetition of the same dismal failure in the regular session.

### Ears Keep Growing.

An odd thing about ears is that throughout one's lifetime they continue to grow bigger. The ears of a girl, admired perhaps for their small size, are fairly large by the time she has reached middle age. In old age they may be larger. In any company of people one may notice that it is the elders that have the big ears. In the very old they are overgrown.

## DO YOU HAVE DIZZY SPELL

It's Important to Learn the Cause.  
As Many Bedford People Have

Dizziness is never a disease of itself—it's only a symptom of some deeper seated trouble. Much dizziness is caused by disordered kidneys failing to filter all the poisons from the blood. These poisons attack the nerves and dizziness results. If you are subject to dizziness, there is good reason to suspect your kidneys, and if you suffer backache, headache, and irregularity of the kidney secretions, you have further proof. Many Bedford people have learned the value of Doan's Kidney Pills in just such cases. Read this Bedford resident's statement:

Mrs. S. Delancy, W. Penn St., says: "Every time I have had any trouble with my kidneys I have used Doan's Kidney Pills and they have relieved me in a short time. Frequently I have had bad pains in my back and severe headaches and I would get so dizzy that the room would seem to be going around. At such times just one box of Doan's have driven the trouble away and I consider them a wonderful remedy for kidney complaint."

## SPRING HOPE

The farmers and lumber haulers  
around here are making good use of  
the snow which is plenty with us. Ed  
Weaver has a force of teams hauling  
lumber from his mill on the Roy  
Mowry farm to Fishertown Station  
and it is not unusual to see a dozen  
teams all loaded with lumber in one  
string. It makes us wonder what the  
next generation will do for building  
material when we see all this fine  
timber being shipped from our vicinity.

Mrs. Margery Cleaver spent Mon-

sion.

Our Mail Carrier, Blair Coplin met

in the rear axle of his car between  
this place and Point. He secured the  
services of Elwood Callahan and with  
Prince as the motive power proceeded  
on his way to the Station and back  
to New Paris.

Btta Hershberger has just recov-  
ered from a severe attack of pneu-  
monia of two weeks duration.

Harry Burns and wife spent a day  
or two in Morrisons Cove on busi-  
ness this week.

Salesman McClellan and McCurdy

dinner on Tuesday.

A. J. Hershberger and daughter

weather permits on the Smith farm

Mr. Earl Potts, according to Doc-

town, but is getting along pretty well  
at present.  
Mr. Billie Friend, (Junior) his  
cook is in a serious condition at this

any more trouble than at present.  
We do not know of any new cases  
at the present time, as the balance  
are on the way to recovery.  
Mr. Paul Logue lost a valuable  
horse the other day.

We are having some severe weath-  
er at the present. Many pipes and  
spigots along the water supply have  
been burst. The last little snow  
that fell seemed to close the roads  
in a good many places, but hope they  
shall immediately open them so as  
to be passable, as the Flu has been  
raging in this vicinity the past few  
weeks, and doctors will be needed.  
The Red Cross has been active also  
in helping to care for the sick.

Mrs. Ellen Filler deserves great  
credit for helping and caring for  
the Bohn family while in sickness and  
bereavement.

M. Augustus May is still in the pin  
business, so if there is anyone has  
any locust to sell, he'll use it.

Mr. Can Cessna has purchased two  
pigs the other day. Mr. Cessna, fatten  
them up good until next fall and you  
will have lots of sausage and pudding.

# The Chance that the Army Offers

# YOU

"As a corporal I was drawing down \$38.10 a month every time the bugles blew 'Pay Day'.

"And when I read in the papers about the big civilian pay envelopes, civil life opportunities looked pretty good to me!

"I took up my old job when I got back and when then they raised my pay to \$35.00 a week—almost as much as I got every month in the Army—well, I thought I was sitting on the world.

"But times have certainly changed! Thirty-five a week today goes like a breeze. Food has advanced, shoes cost more, and every time I buy a suit I think I'm paying for the war as well as fighting it.

"I'm classed, I guess, as just an unskilled worker, I left school too early and I'm sorry for it now.

And where'll I be ten years from now? Answer me that! Working for day wages, making a living and nothing more? I guess not—for I'm going back to join the Army!

"I'm going to take a job that will give me more free cash than I get today—a job that'll mean all my expenses paid—a training that will make me the kind of man who succeeds and a life that'll keep me feeling fit and fine."

## Health, Travel and Training

• Congress has appropriated \$2,000,000.00 to be used in the Army Schools. In many schools and posts you will have the opportunity of being trained in the skilled trades and at practically all Army stations, schools are in operation in which you can improve your education.

You'll have enough out-door work to keep you in perfect trim. You'll learn the sort of discipline that makes a man able to handle other men. You'll have a fine crowd of buddies. You'll live a fine healthy life—no soft snap about it, but it will be a life that will make you a regular man.

You'll learn how to hold up your end in any company. You'll have an increased ability—a sure self-confidence on your return.

You'll be a part of America—one of its fighting men—its bulwarks of defense. If there's any trouble that the Army has to settle you'll have a red-blooded man's chance to do your share of the settling.

And three years from now, when the men who are working besides you now are still working for day wages, you will step out with a training that will command real money.

Think it over. The next three years at home; and no further along at the end.

Or the next three years in the Army, and a training that you can cash in on for the rest of your life. It's worth investigating, isn't it? Worth stopping in at the recruiting office to talk to the man in charge.

# UNITED STATES ARMY

## THE 14 ARMS OF THE SERVICE

The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. In all of them you will get the fine training as a soldier that the United States offers all its men—in many branches you can get highly specialized training.

**INFANTRY**—The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. Fine fellows—good fun and good training in any school at the post you go to.

**CAVALRY**—When the horses are champing at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavalryman can ever forget. A horse of your own—a good outdoor life and training for future success.

**FIELD ARTILLERY**—"Action Front" comes the command—then watch the boys with the red hat cord snap into it. A happy outfit—with the dash of mounted service added to interesting work that calls for head and hand. Motors if you wish.

**CORPS OF ENGINEERS**—Army engineering is known the world over for its excellence and an enlistment in the engineers can be the start of a young man's training in the various branches of engineering and in the mechanical and building trades.

**COAST ARTILLERY**—Living on the sea coasts, guarding big cities with big guns, getting time for study and a wide and good technical training, the C. A. C. man is preparing for a useful life and good pay and is having a good time while he's learning. The C. A. C. also mans the mobile big gun regiments throughout the country.

**AIR SERVICE (including BALLOON CORPS)**—The man who gets the early edge in experience with aeroplanes and balloons has a chance to cash in big on his army training. For flying is only in its infancy and it's going to be a profitable business for men with the right experience.

**ORDNANCE DEPT.**—The ordnance is appealing to the studious young American. The wide opportunities for study, it adds a business as well as a technical training.

**SIGNAL CORPS**—Whether it's laying a wire from a reel-cart at a gallop or installing a wireless station that will flash its message half around the world, the Signal Corps is there, and a man who learns radio telegraph and telephone work in the Signal Corps is always valuable.

**MEDICAL DEPT.**—Good experience, good pay, and training in all branches of hospital work. Excellent opportunity for future success. The Veterinary Corps teaches the care of horses as well as meat and milk inspection.

**TANK CORPS**—The man who knows gas motors and tractors or who wants to know them is invited to join the Tanks. Radio, machine gun and ordnance work are all parts of the Tank Corps work.

**QUARTERMASTER CORPS**—The Corps that feeds and clothes the Army offers a valuable training for future business. Interesting work for the man who likes horses in the Remount Service.

**CONSTRUCTION DIVISION**—Practical work in the many trades is part of the every day life of the Construction Division. Many opportunities to learn the trades of highly paid specialists.

**CHEMICAL WARFARE SERVICE**—For a man with a little knowledge of chemistry or for any ambitious young man who would like to get that knowledge, there is interesting work and rapid advancement in the C. W. S.

**MOTOR TRANSPORT CORPS**—A thorough practical training in motors and their accessories, and in driving as well, is given in the well-equipped schools of the Motor Transport Corps.

## Where the U. S. Army Serves

American troops are serving in Panama, Hawaii, the Philippines, Alaska, China, Germany, Siberia and here in the U. S. A. The Recruiting Sergeant will gladly give you all the details.

Like every one else in the army, from General to Buck Private, you're under orders, and if your outfit moves and you're needed elsewhere, your duty is to go.
